

BPW 2018 service training. Quality products. Quality training.

BPW are world renowned for their quality axle and suspension systems. This dedication to quality extends to the highly rated product training we offer, designed to optimise the performance and durability of BPW products.

To ensure that all BPW customers have access to this invaluable service, BPW's prestigious Infomobil tours Scotland, Northern England and Ireland to host a series of 1 day courses. This training provides invaluable instruction in the maintenance and repair procedures for BPW running gear systems.

BPW Infomobil
